2 MISO/Bruce Samblanet: Tom, hi. This is
3 Bruce at Midwest ISO.

4 SPEAKER: Hi.

5 MISO/Bruce Samblanet: I was just talking
6 to Barb Nutter, and I guess you guys are having some
7 trouble with tags on a reservation that points to AP?

8 SPEAKER: Yeah.

9 MISO/Bruce Samblanet: And we're guessing
10 that it would be a heck of a lot better if you had PJM.

11 SPEAKER: Yeah.

12 MISO/Bruce Samblanet: We really don't see
13 any problem with that. Could you send me an email
14 just stating that that's what you want to happen?

15 SPEAKER: Yeah.

16 MISO/Bruce Samblanet: That would take
17 care of it, and we'll get it taken care of. And then
18 I'll notify you and Barb when it's taken care of.

19 SPEAKER: All right. What is the email

10 SPEAKER: Yeah. Excellent.

16 MISO/Bruce Samblanet: Exactly.

17 SPEAKER: Yeah.

18 MISO/Bruce Samblanet: That would be

20 SPEAKER: Yeah, it works for me too.

2 Cinergy/Spencer: The section of the
3 Bloomington to DeNoye Creek, 23018 line is out of
4 service. It appears we've got a fade and burn open.
5 There's too much generation on the west side of the
6 state pushing east, and we've got all kinds of
7 underlying overloads.

8 MISO/Tim Johns: Hang on. I've got to get

5 quick.

6 MISO/Rob Benbow: I do see ?? okay. I do

14 Cinergy/Doug: What lines did we lose?

15 Cinergy/Spencer: We lost 345 line between
16 Bedford and Columbus.

17 Cinergy/Doug: Bedford-Columbus line.

18 Cinergy/Spencer: That started it all, and
19 then we've locked out a 230 line.

NEAL R. GROSS

COURT REPORTERS AND TRANSCRIBERS

1323 RHODE ISLAND AVE., N.W.

1 mean, physically, of course, Plainfield would be east

3 to 138. And the 138 comes out of Staunton toward
4 Cloverdale and Plainfield. That's the line I got out,
